SOME OF MY PROJECTS

Cache Bank Website (Landing Page)

I developed a landing page for a fictional company, Cache Bank, showcasing my ability to translate design into functional code while creating an intuitive and user-friendly interface. This project highlights my skills in front-end development and design implementation.

TECHNOLOGIES - HTML, TAILWIND

Agile Board Task Management

I enhanced an Agile task board by debugging existing code to ensure smooth functionality. Key improvements included adding a toggle sidebar for better navigation, implementing features to save and add tasks seamlessly, and ensuring saved tasks dynamically render on the page for an interactive user experience. This work highlights my skills in debugging and feature implementation.
